

What you need to know about our courtroom technology.
Memphis Courtroom #1, 2, 3 & 4 - AV system.

We have a state of the art AV system installed new during the summer of 2011.

Features include;

- 11 fixed microphones at strategic points.
- 4 wireless lapel microphones.
- 2 wireless handheld microphones.
- 16x9 LCD monitors at counsel tables, podium, well area and witness stand.
- Annotation monitors at podium and witness stand.
- 15 ft HD format screen for Jury viewing with 5000 lumen LCD projector.
- 50 inch plasma monitor for gallery viewing.
- Witness stand has a dedicated speaker with volume control.
- Jury box has 3 dedicated speakers.
- Color evidence printer.
- Digital document camera
- Teleconference and telephonic interpreter system built in.
- Infrared interpreter and hearing impaired system
- Wireless RF interpreter system available
- VGA and HDMI inputs at counsel table, podium and witness stand for laptop connection.
- Composite and S video connections at podium for external AV equipment (VCR, DVD, etc. Counsel must provide their own playback equipment)
- Video Conference capability in each courtroom. Advance notice required.
- AMX control system. Courtroom deputy has complete control over all audio and video.

We do not provide internet access. You may use other wireless means to connect with Judicial permission. Cell phones, etc must not interfere with the AV system.

We will be happy to arrange a demo or allow you to connect your presentation equipment prior to trial. Please call Ike Mussleman or Mark Howard at 901-495-1350 for an appointment.
